

001 - Configure Agents for VMDR

You can update and modify agent Activation Keys, from the VMDR "Welcome" page. Under the "Identify Assets" section of the VMDR "Welcome" page, click the **"Configure Agents for VMDR"** button.

The screenshot shows the Qualys Cloud Platform VMDR interface. The top navigation bar includes links for DASHBOARD, VULNERABILITIES, PRIORITIZATION, SCANS, REPORTS, REMEDIATION, ASSETS, KNOWLEDGEBASE, and USERS. The main content area features a "Hello Qualys! Welcome to Qualys VMDR®" message with a "Learn more" button. To the right is a circular diagram with four segments: Asset Management, Vulnerability Management, Threat Detection & Prioritization, and Response. Below this, four key features are highlighted: Identify Assets, Discover Vulnerabilities & Misconfigurations, Prioritize Threats, and Detect & Deploy Missing Patches. At the bottom, a large red button labeled "Configure Agents for VMDR" is prominently displayed next to a cloud icon with a downward arrow. To the right of this button, text describes finding IT assets and links to "Manage Tags" and "Visit Dashboard".

Here, you can select and upgrade Activation Keys for VMDR. Presently the "Minimum Module Activation Key" (at the top) has only one application module. Select the check box for the **Minimum Module Key**.

001 - Configure Agents for VMDR

The key has been successfully updated. For a detailed discussion of agent configuration steps, please see the Qualys Cloud Agent Training Course.

The screenshot displays the Qualys Cloud Platform interface, specifically the Agent Management section. The top navigation bar includes the Qualys logo, 'Qualys. Cloud Platform', and a 'Cloud Agent' dropdown menu. The main content area is titled 'Agent Management' and features a blue header with tabs for 'Agents', 'Activation Keys', and 'Configuration Profiles'. The 'Activation Keys' tab is currently selected. Below the header, there are filters for 'Status' (Active) and 'Enabled' (Yes). A table lists two activation keys:

Activation Key	Agents	Created	Created by	Expires	Modules
<input checked="" type="checkbox"/> VMDR Lab Activation Key fff6cb76-0b2f-4b40-b757-6e67c98d0131	0	September 01, 2021	trann3eq75 User (trann3eq75)	never unlimited key	PM CSAM VM PC
<input type="checkbox"/> Default VMDR Activation Key 4718953e-6264-4701-8e95-839a2037978a	0	September 27, 2020	Qualys User (trann3eq75)	never unlimited key	PM CSAM VM SCA

At the bottom right of the interface, there are links for 'About | Terms of Use | Support'.

001 - Configure Agents for VMDR

You can close this window, and continue to read through your Lab Tutorial Supplement, for a review of the steps you just completed, and some additional details.

The screenshot displays the Qualys Cloud Platform interface, specifically the Agent Management section. The top navigation bar includes the Qualys logo, "Qualys. Cloud Platform", and a "Cloud Agent" dropdown menu. The main content area is titled "Agent Management" and features tabs for "Agents", "Activation Keys", and "Configuration Profiles". The "Activation Keys" tab is active, showing a table of activation keys. The table has columns for "Activation Key", "Agents", "Created", "Created by", "Expires", and "Modules". Two keys are listed: "VMDR Lab Activation Key" and "Default VMDR Activation Key". The "VMDR Lab Activation Key" is selected, and its details are highlighted in yellow. The "Default VMDR Activation Key" is also listed. The interface includes filters for "Status" (Active) and "Enabled" (Yes). A "New Key" button is visible. The bottom right corner contains links for "About", "Terms of Use", and "Support".
