

013 - Patch Catalog

- This lab tutorial provides a quick tour of the Patch Catalog, within the Patch Management application. From the "Patch Management" application, click **PATCHES** (at the top).

013 - Patch Catalog

- ⓘ By default, only the latest (non-superseded) patches that are missing, are displayed. To display all patches in the catalog, simply remove the default filters.

Screenshot of Qualys Cloud Platform Patch Management interface showing the Patch Catalog.

The interface includes a sidebar with navigation links like Patch Management, Dashboard, Assets, Jobs, and Configuration. The main area shows a summary of 87 total patches, categorized by App Family (Windows 80, Visual C++ 2, .Net 1, Firefox 1, Java 1), Vendor (Microsoft 83, Apache Software... 1, Mozilla Foundati... 1, Sun Microsystems 1, Wireshark Found... 1), Category (Non-Security Pat... 75, Security Patches 11, Security Tools 1), and Type (OS 80, Application 7).

The central view displays a list of patches with columns for Patch Title, Published Date, Archit, Bulletin / KB, Category, QID, Vendor Severity, Missing, and Installed. The first few patches listed are:

PATCH TITLE	PUBLISHED DATE	ARCHIT	BULLETIN / KB	CATEGORY	QID	VENDOR SEVERITY	MISSING	INSTALLED

013 - Patch Catalog

- With the filters removed, all patches in the catalog are now displayed. Some of the patches in the patch catalog cannot be downloaded by Qualys Cloud Agent, because of credential requirements.

The screenshot shows the Qualys Cloud Platform interface for Patch Management. The top navigation bar includes links for Patch Management, Dashboard, Patches (which is the active tab), Assets, Jobs, and Configuration. The user profile icon is in the top right corner.

The main area is titled "Patch Catalog" and displays a total of 34.7K patches. On the left, there are filters for APP FAMILY (Windows: 14.8K, Office: 4.9K, Internet Explorer: 1.8K, Office Viewer: 1.66K, Lync: 1.34K, 45 more), VENDOR (Microsoft: 24.8K, Mozilla Foundation: 1.06K, Google: 718, Adobe: 692, Opera Software: 552, 45 more), CATEGORY (Security Patches: 21.9K, Non-Security Pat...: 12.2K, Security Tools: 397, Software Distribu...: 279, Custom Actions: 1), and TYPE.

The central part of the screen shows a table of patches. The columns include PATCH TITLE, PUBLISHED DATE, ARCHIT, BULLETIN / KB, CATEGORY, QID, VENDOR SEVERITY, MISSING, and INSTALLED. The table lists several patches from GoodSync, Opera, FileZilla, Google Drive, Evernote, and Plex Media Server, all published on Oct 26, 2021. Most patches are X64 architecture, though some are X86. The severity is listed as None for most, with one entry for ENOT. The table also shows counts for "3 more" patches in the Opera row and "6 more" in the GoodSync row.

PATCH TITLE	PUBLISHED DATE	ARCHIT	BULLETIN / KB	CATEGORY	QID	VENDOR SEVERITY	MISSING	INSTALLED

013 - Patch Catalog

ⓘ We'll use the "downloadMethod" query token to display these patches.

The screenshot shows the Qualys Cloud Platform Patch Management interface. On the left, there's a sidebar with a summary of 34.7K total patches and filters for APP FAMILY (Windows 14.8K, Office 4.9K, etc.), VENDOR (Microsoft 24.8K, Mozilla, Google, Adobe, etc.), CATEGORY (Security Patches 21.9K, Non-Security Pat... 12.2K, etc.), and TYPE. The main area is titled 'Patch Catalog' and has tabs for Windows and Linux. It features a search bar with the query 'downloadMethod:AcquireFromVendor' highlighted by a red box. Below the search bar are buttons for Actions (0) and Filters. The results table has columns for PATCH TITLE, PUBLISHED DATE, ARCHIT, BULLETIN / KB, CATEGORY, QID, VENDOR SEVERITY, MISSING, and INSTALLED. The first few rows show patches for GoodSync, Opera, and FileZilla Client, all published on Oct 26, 2021, with various severity levels and counts of missing and installed patches.

013 - Patch Catalog

- ⓘ Not all patches listed in the Patch Catalog can be uninstalled.

The screenshot shows the Qualys Cloud Platform Patch Management interface. The top navigation bar includes links for Patch Management, Dashboard, Patches (which is selected), Assets, Jobs, and Configuration, along with user icons. The main area is titled "Patch Catalog" and shows "34.7K Total Patches". It has tabs for Windows and Linux, and a search bar. On the left, there are filters for APP FAMILY (Windows 14.8K, Office 4.9K, Internet Explorer 1.8K, Office Viewer 1.66K, Lync 1.34K, 45 more), VENDOR (Microsoft 24.8K, Mozilla Foundati... 1.06K, Google 718, Adobe 692, Opera Software A... 552, 45 more), CATEGORY (Security Patches 21.9K, Non-Security Pat... 12.2K, Security Tools 397, Software Distribu... 279, Custom Actions 1), and TYPE (26K). The main table lists patches with columns for Patch Title, Published Date, Archit, Bulletin / KB, Category, QID, Vendor Severity, Missing, and Installed. Some rows show additional details like "3 more" or "6 more" patches.

013 - Patch Catalog

- With the "isRollback" query token (set to the value of "true") we'll display all "uninstallable" patches.

The screenshot shows the Qualys Cloud Platform Patch Management interface. On the left, there's a sidebar with 'Patch Catalog' and a total of '34.7K Total Patches'. Below this are sections for 'APP FAMILY', 'VENDOR', 'CATEGORY', and 'TYPE'. The main area is titled 'Patch Catalog' and has tabs for 'Windows' and 'Linux'. At the top, there's a search bar with the query 'isRollback:true' highlighted by a red box. Below the search bar are buttons for 'Actions (0)', 'Filters', and 'Prioritized Products'. The results table has columns for PATCH TITLE, PUBLISHED DATE, ARCHIT, BULLETIN / KB, CATEGORY, QID, VENDOR SEVERITY, MISSING, and INSTALLED. The first few rows show patches like 'GoodSync 11.9.2.2', 'Opera 80.0.4170.72', and 'FileZilla Client 3.56.2'.

013 - Patch Catalog

These patches are all candidates for an Uninstall Job.

The screenshot shows the Qualys Cloud Platform Patch Management interface. The top navigation bar includes links for Patch Management, Dashboard, Patches (which is selected), Assets, Jobs, and Configuration, along with user icons. The main title "Patch Catalog" is displayed above a large blue sidebar containing summary statistics: "12.1K Total Patches". The sidebar also lists filters for "APP FAMILY" (Windows, Internet Explorer, Internet Information...), "VENDOR" (Microsoft), "CATEGORY" (Security Patches, Non-Security Pat...), "TYPE" (OS, Application), and "VENDOR SEVERITY" (Critical, None). The main content area shows a table of patches for "Windows". The table has columns for Patch Title, Published Date, Archit, Bulletin / KB, Category, QID, Vendor Severity, Missing, and Installed. A search bar at the top of the table results in "isRollback:true". The first patch listed is "Security Monthly Rollup for Windows 8.1 and Server 2012 R2: October 2021". Other patches include "October 12, 2021-KB5006729 (Security-only update)" and various .NET Framework security rollups. Most patches are marked as "Important" (red) and have 0 missing and 0 installed. One patch is marked as "None" (grey) and has 1 missing and 0 installed. The last patch listed is "KB5006750: Servicing stack update for Windows Server 2008 SP2: October 2021".

013 - Patch Catalog

Select the check box next to **Missing**.

The screenshot shows the Qualys Cloud Platform Patch Management interface. The top navigation bar includes links for Patch Management, Dashboard, Patches (which is selected), Assets, Jobs, and Configuration, along with user icons.

The main area is titled "Patch Catalog" and displays "34.7K Total Patches". On the left, there are filters for APP FAMILY (Windows: 14.8K, Office: 4.9K, Internet Explorer: 1.8K, Office Viewer: 1.66K, Lync: 1.34K, 45 more), VENDOR (Microsoft: 24.8K, Mozilla Foundation: 1.06K, Google: 718, Adobe: 692, Opera Software A...: 552, 45 more), CATEGORY (Security Patches: 21.9K, Non-Security Pat...: 12.2K, Security Tools: 397, Software Distribu...: 279, Custom Actions: 1), and TYPE.

The central part of the screen shows a list of patches. The first patch listed is "GoodSync 11.9.2.2". The "Actions (0)" dropdown menu is open, showing filter options for "Patch Status": "Missing" (unchecked) and "Installed" (unchecked). Other filter options include "Only Latest Patches (Non-superseded)" and "Yes".

The table header for the patch list is "PATCH STATUS" and includes columns for PUBLISHED DATE, ARCHIT, BULLETIN / KB, CATEGORY, QID, VENDOR SEVERITY, MISSING, and INSTALLED. The data in the table is as follows:

PATCH STATUS	PUBLISHED DATE	ARCHIT	BULLETIN / KB	CATEGORY	QID	VENDOR SEVERITY	MISSING	INSTALLED

013 - Patch Catalog

Notice that patches can be selected and added to a patch job, right here from the Patch Catalog.

The screenshot shows the Qualys Cloud Platform Patch Management interface. The top navigation bar includes links for DASHBOARD, PATCHES (which is currently selected), ASSETS, JOBS, and CONFIGURATION. The sub-navigation under Patch Management shows 'Patch Catalog' with a total of 87 patches. The main content area is titled 'Patch Catalog' and has tabs for Windows and Linux. A search bar and filter dropdown are present. Below the table, there are buttons for Actions (1) and Filters. The table itself has columns for Patch Title, Published Date, Archit, Bulletin / KB, Category, QID, Vendor Severity, Missing, and Installed. A context menu is open over the first patch in the list, showing options like 'Quick Actions', 'View Details', 'Add to Existing Job' (which is highlighted with a red box), 'Add to New Job', and 'Remove Patch'. The 'Add to Existing Job' option is specifically mentioned in the text below.

The "Prioritized Products" list identifies discovered software applications...

APP FAMILY NAME	VULNERABILITIES
Chrome	1727
Windows	1391
Edge	716
Java	435
Firefox	384
Tomcat	24
Wireshark	13
Windows Defender	5

013 - Patch Catalog

- ⓘ ...along with the number of vulnerabilities each application has added to the assets you are managing. Products and applications the the greatest number of vulnerabilities are at the top of the list.

- ⓘ For this example, we'll create a "zero-touch" patch job for the browser applications.

The screenshot shows a report titled "Prioritized Products" from the Qualys Cloud Platform. The report displays the total number of product vulnerabilities (active and fixed) detected in the environment over the last 2 years. The data is presented in a table with two columns: "APP FAMILY NAME" and "VULNERABILITIES".

APP FAMILY NAME	VULNERABILITIES
Chrome	1727
Windows	1391
Edge	716
Java	435
Firefox	384
Tomcat	24
Wireshark	13
Windows Defender	5

i Chrome, Edge, and Firefox have been selected for you. Click the "Actions" button.

The screenshot shows a Qualys Cloud Platform interface titled "Prioritized Products". A message at the top indicates the report shows total product vulnerabilities over the last 2 years. Below this, there are buttons for "Actions (3)", "Filters", and a refresh icon. The main table displays the following data:

APP FAMILY NAME	VULNERABILITIES
Chrome	1727
Windows	1391
Edge	716
Java	435
Firefox	384
Tomcat	24
Wireshark	13
Windows Defender	5

Select Create Job using Query.

This report enables you to view the total number of product vulnerabilities (active and fixed) detected in your environment over the last 2 years.

Product	Vulnerabilities
Windows	1391
Edge	716
Java	435
Firefox	384
Tomcat	24
Wireshark	13
Windows Defender	5

We'll give this job a new title and a description.

The screenshot shows the 'Create: Windows Deployment Job' wizard in progress. The left sidebar lists 'STEPS 1/7' with '1 Basic Information' selected. The main area is titled 'Basic Information' and contains instructions: 'Create this deployment job by selecting assets and patches to be installed. Also, define the deployment schedule and configure message options you want to display as reminders.' Below this is a 'Title for your job' field containing 'PatchNow_1635436339223'. A 'Description' text area is present with a character count of '1000/1000 characters remaining'. At the bottom are 'Cancel' and 'Next' buttons.

- With the title and description added, click the "Next" button.

The screenshot shows the 'Create: Windows Deployment Job' wizard in progress, specifically Step 1/7: Basic Information. The left sidebar lists the steps: 1. Basic Information (selected), 2. Select Assets, 3. Select Patches, 4. Schedule, 5. Options, 6. Job Access, 7. Confirmation. The main area is titled 'Basic Information' and contains instructions: 'Create this deployment job by selecting assets and patches to be installed. Also, define the deployment schedule and configure message options you want to display as reminders.' Below this are two input fields: 'Title for your job *' containing 'Weekly Browser Deployment Job' and 'Description' containing 'Deploy patches for Chrome, Edge, and Firefox each week, automatically.' A character counter at the bottom right of the description field shows '930/1000 characters remaining'. At the bottom are 'Cancel' and 'Next' buttons.

Click the "Select Tags" link.

The screenshot shows the 'Create: Windows Deployment Job' interface in Qualys Cloud Platform, specifically Step 2: Select Assets. The left sidebar lists steps 1 through 7: Basic Information, Select Assets (which is currently selected), Select Patches, Schedule, Options, Job Access, and Confirmation. The main content area is titled 'Select Assets' and instructs the user to 'Select the assets you want this job to deploy patches on'. It shows a message 'Include the following assets.' followed by 'There are no assets selected' and a 'Take me to asset selector' link. Below this, there is a checkbox for 'Add Exclusion Assets'. Further down, it says 'Include hosts that have Any ▾ of the tags below.' followed by a 'Select Tags' link, which is highlighted with a red box. This section also shows 'There are no tags selected' and a 'Take me to tag selector' link. At the bottom of the page are 'Cancel', 'Previous', and 'Next' buttons.

Select the "VMDR Lab" tag...

The screenshot shows the 'Create: Windows Deployment Job' wizard in the Qualys Cloud Platform. The current step is 'Select Assets'. A modal dialog titled 'Select Tags' is open, prompting the user to 'Add tags to the selected asset(s)'. The dialog contains a search bar and a list of tags categorized by type. The 'VMDR Lab' tag is highlighted with a yellow selection bar, indicating it is being selected. Other visible tags include Asset Groups, Business Units, Cloud Agent, Default Dashboard Access Tag, Internet Facing Assets, Misc., Network, OS, and Web App.

- ⓘ Leave the "Job Access" field empty and click **Next**.

The screenshot shows the 'Create: Windows Deployment Job' wizard in progress, specifically Step 6: Job Access. The left sidebar lists the steps: 1. Basic Information, 2. Select Assets, 3. Select Patches, 4. Schedule, 5. Options, 6. Job Access, and 7. Confirmation. Step 6 is currently selected. The main content area is titled 'Job Access' and contains the instruction 'Select the Co-Author users who can edit this job.' Below this, a message states 'There are no users selected' and includes a link 'Take me to user selector'. At the bottom of the page are three buttons: 'Cancel', 'Previous', and 'Next'.

- ⓘ Click the "Save" button...

← Create: Windows Deployment Job

REBOOT COUNTDOWN MESSAGE

The system reboot is initiated. It will reboot automatically after the timer countdown.

COUNTDOWN: 15 Minutes

The screenshot shows the Qualys Cloud Platform Patch Management interface. On the left, there's a sidebar with a summary of 3 total jobs, categorized by status (Enabled: 2, Completed: 1) and schedule (Daily: 1, On-demand: 1, Weekly: 1). The main area displays a table of jobs. The first job, 'Weekly Browser Deployment Job', is highlighted with a red box. It is an 'Enabled' Windows job owned by 'quays2pn1' with a weekly schedule. The second job, 'VMDR Lab Deployment Job', is a 'Completed' Windows job owned by 'quays2pn1' with an on-demand schedule. The third job, 'Daily Patch Deployment - Windows', is an 'Enabled' Windows job owned by 'quays2pn1' with a daily schedule. The table includes columns for Status, Name, Owner, Schedule, Patches, Assets, and Tags.

013 - Patch Catalog

This concludes the "Patch Catalog" tutorial. You may close this window and return to the Lab Tutorial Supplement.

The screenshot shows the Qualys Cloud Platform interface for Patch Management. The top navigation bar includes links for DASHBOARD, PATCHES, ASSETS, JOBS (which is underlined in blue), and CONFIGURATION. On the left, there's a sidebar titled 'Jobs' with sections for STATUS (Enabled: 2, Completed: 1), SCHEDULED (Daily: 1, On-demand: 1, Weekly: 1), and JOB TYPE (Install: 3). The main content area is titled 'Jobs' and shows a search bar and filter options. It lists three scheduled jobs:

STATUS	NAME	OWNER	SCHEDULE	PATCHES	ASSETS	TAGS
Enabled	Weekly Browser Deployment Job Install Job	quays2pn1	Weekly on Wednesday, 02:45 pm Oct 28, 2021	0*	7*	VMDR Lab
Completed	VMDR Lab Deployment Job Install Job	quays2pn1	On-Demand Oct 27, 2021	2	7	Cloud Agent
Enabled	Daily Patch Deployment - Windows Install Job	quays2pn1	Daily, 06:00 pm Apr 26, 2021	36	7*	Cloud Agent
